2017-2018 ANNUAL REPORT

SPONSORS ECLIPSE \$500,000 IN RECRUITING SUPPORT FOR FIRST TIME EVER

For the first time in the program's 63-year history, our Athletic Sponsors have surpassed the half-

million-dollar mark, contributing **\$511,903** in support of the recruiting efforts of Big Green

coaches! Gifts came from 859 alumni, 63 parents, 23 other individuals, and 35 class treasuries.

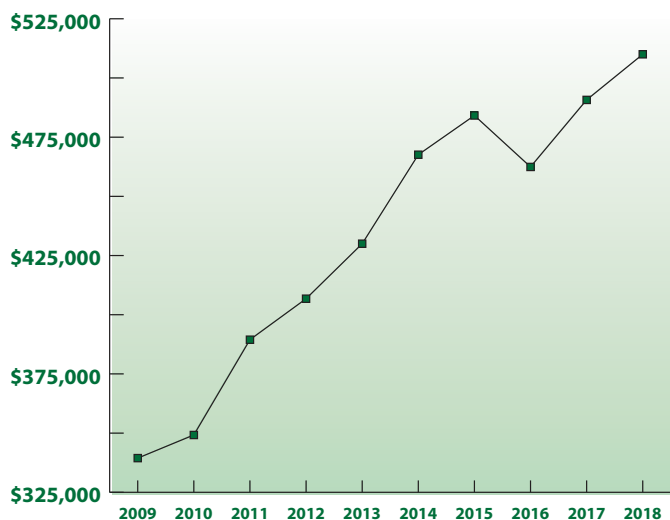

This unprecedented generosity funded the campus visits of **284** talented prospects, and a record high of **146** sponsored recruits will be enrolling

this fall. These elite student-athletes hail from 25 states, four Canadian provinces, Australia, the Czech Republic, Hungary, Iceland, New Zealand, and the United Kingdom.

Dartmouth's Class of 2022 includes a total of **211** student-athletes recruited by our coaches. Of those talented individuals, **189** were directly impacted by the Sponsor Program — brought to Hanover on sponsored visits, seen by our coaches on the road, or both.

This surge in generosity could not have come at a more opportune time, as you'll see below...

10 Years of Total Giving to the Sponsor Program

EARLIER VISITS CREATE NEW OPPORTUNITIES

In recent years, elite prospective student-athletes have been making their college choices earlier and earlier. Historically, however, the NCAA has prohibited colleges from funding prospects' recruiting trips prior to senior year in high school.

This restriction has meant that many exceptional prospects have made their college decisions **without visiting Dartmouth**, unless they've had the means and the inclination to visit Hanover at their own expense.

Fortunately, that situation has come an end, as a new NCAA rule allows colleges to fund students' recruiting trips during their junior year.

This change provides our Athletic Sponsors with the potential to have **even more impact** on our recruiting success by empowering Dartmouth coaches to offer sponsored visits to top prospects when they are juniors — **before** they have made verbal commitments elsewhere.

We all know how a visit to our spectacular campus can totally change the recruiting dynamic. With the support of our Sponsors, we can use the new NCAA rule to create a strategic advantage for Dartmouth!

1. This statistic eliminates those who committed elsewhere before completion of the application process.
2. Basketball is the one sport in which the NCAA allows schools to pay for the transportation of parents, so the average trip cost is significantly higher.
3. Skiing is unique in that prospects ski in many of the same races in which our teams compete, so our coaches can evaluate them without separate recruiting trips.
